an urjalabs product

Study smarter, on the phone you already have

ScholarMind turns your own textbooks and notes into a private AI tutor that explains, quizzes and revises with you — no internet needed, nothing leaves your phone.

- Your study buddy — even on the train, even with no signal.
- No network? No problem. ScholarMind works fully offline.
- Study anywhere — bus, train, hostel, village. No data, no waiting.

Works offline

Study on the bus, in class, anywhere — no data, no Wi-Fi, no waiting.

Cited to your book

Every answer points to the exact page in your own material.

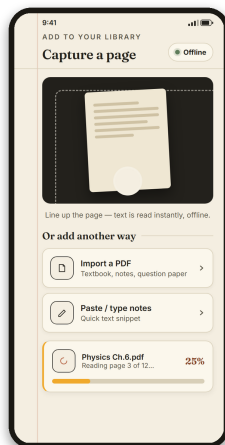

Free & private

Runs on your phone. No account, no fees, nothing uploaded.

From your syllabus

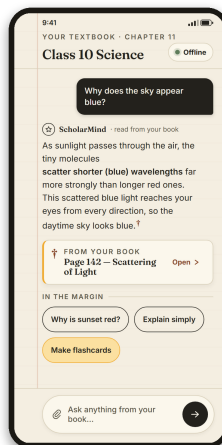

Snap your textbook or import a PDF — it learns from what YOU study.

The loop: capture ☐ ask ☐ understand ☐ remember

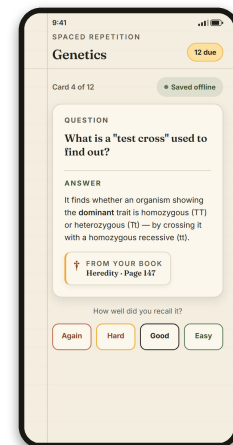

1 • Capture

Snap a page, import a PDF, or paste notes.

2 • Ask

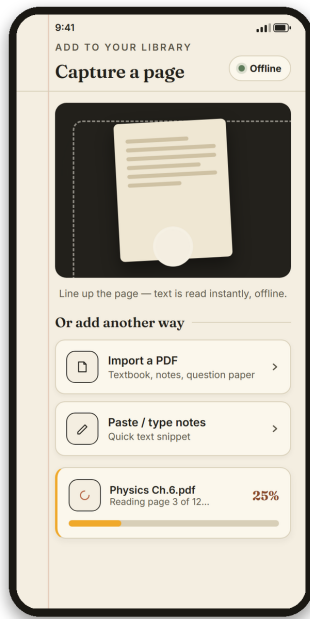

Ask in your words; get a cited answer.

3 • Remember

Auto flashcards revise it for you.

A closer look — every feature

FEATURE 01

Capture

Snap a textbook page, import a PDF, or paste notes — the text is read right on your phone and filed into your book.

- Camera, PDF or paste
- Read offline, nothing uploaded

From your syllabus · Offline

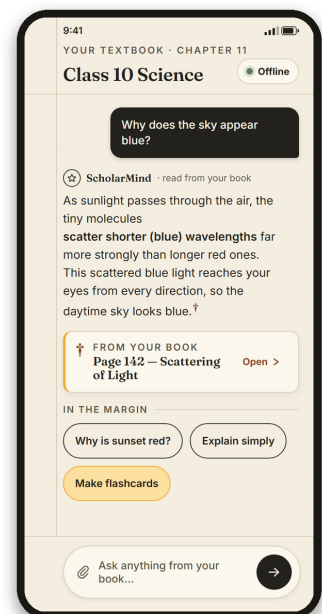

FEATURE 02

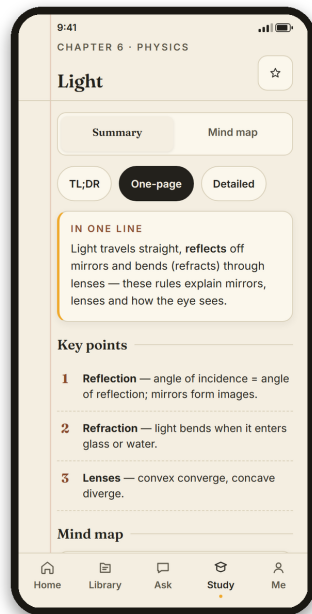

Chat with your book

Ask a question in plain language and get a clear answer pulled from your own notes — with the exact page shown beneath it.

- Cited to the page
- Tap to make flashcards or simplify

Cited to the page · Offline

**FEATURE 03**

Understand a chapter fast

Turn any chapter into a TL;DR, one-page or detailed summary — or an interactive mind map of the key ideas.

- Adjustable depth
- Mind map of the whole chapter

Summaries · Mind maps

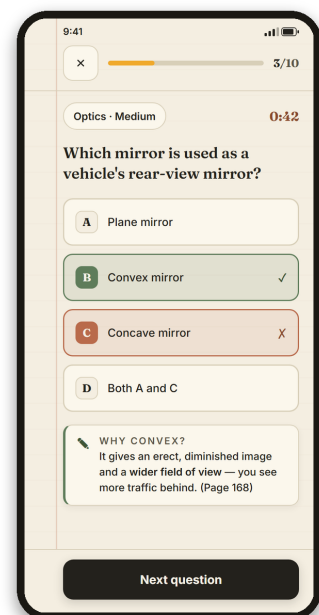

FEATURE 04

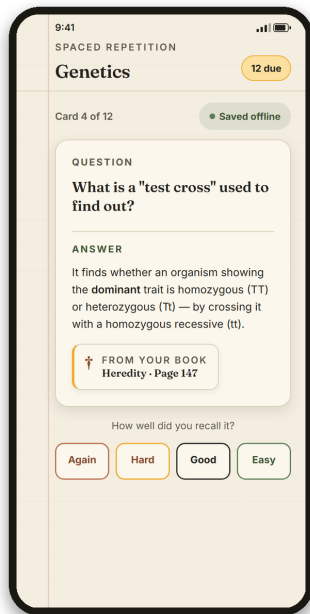

Practice quizzes

Auto-generated questions from your material, graded instantly, with an explanation that cites the page.

- Instant grading
- Explained, not just marked

Graded · Cited

**FEATURE 05**

Flashcards that stick

Spaced-repetition cards from your own material resurface each idea right before you'd forget it.

- Rate Again / Hard / Good / Easy
- Beats last-minute cramming

Spaced repetition · **Offline**

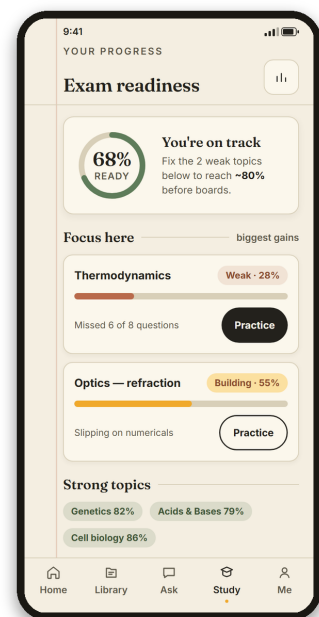

FEATURE 06

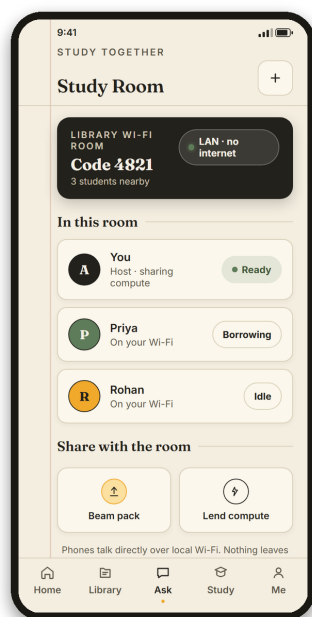

Know your weak spots

See which topics are weak and how exam-ready you are — then practise the topics that move your marks most.

- Exam-readiness score
- Practise straight from a weak topic

Weak-point analysis

**FEATURE 07**

Study together — offline

Open a Study Room on the library Wi-Fi to share study packs and help a friend on a slower phone. No internet.

- Beam books & flashcards
- All on local Wi-Fi

Peer sharing · LAN

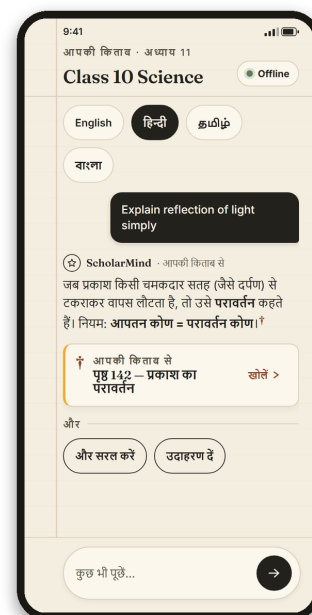

FEATURE 08

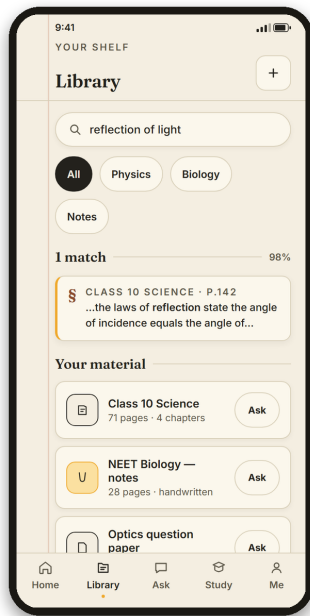

Answer in my language

Ask in any language and get the answer in your own — Hindi, Tamil, Bengali and more — with the same grounding and citation.

- Many Indian languages
- Cited, in your language

Multilingual · Cited

**FEATURE 09**

Smart library & search

Every book and note on one shelf, searchable across everything — and the results cite the page.

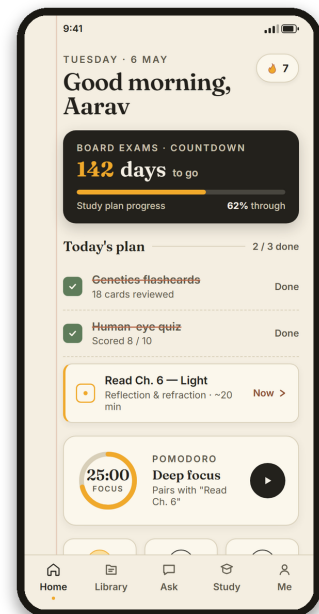

- Search across all material
- Find the exact line in seconds

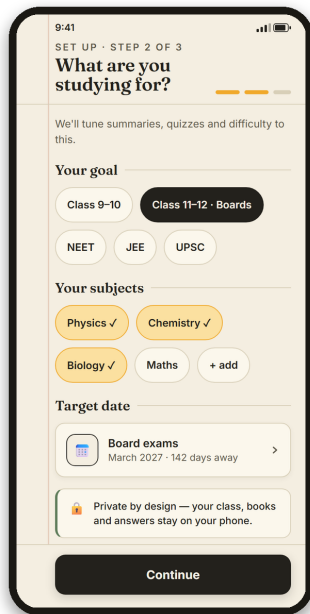

Search everything**FEATURE 10**

Plan & stay motivated

A daily plan, streaks, a focus timer and an exam countdown keep you showing up — the hardest part of self-study.

- Streaks & focus timer
- Exam countdown

Planning & motivation

**FEATURE 11**

Tuned to you

A quick first-run setup captures your class, exam, subjects and goal, so summaries, quizzes and difficulty fit you.

- Class- and exam-aware
- Private by design

Onboarding & diagnostic

Be an early tester

We're inviting a small group of students to try ScholarMind first and shape what we build next. It takes 2 minutes to tell us what you need — and there's no app to install yet.

Tell us what you study & what you need

Scan the code or open the survey link your library shares. Your answers go straight to the team — no sign-up needed.

urjalabs.in/survey

Your privacy, by design

ScholarMind is built to run entirely on your phone — your notes and questions stay with you. We only collect what you choose to share in the survey.
